RESPONSE TO ELECTION REQUIREMENT

Assistant Commissioner for Patents
Box Non-Fee Amendments
Washington, D.C. 20231

Sir:

In response to the Office Action mailed December 18, 2001, applicants hereby elect claims 1-4, drawn to a compression method involving the steps of combining a textured image and a modeled image, for prosecution in the above-captioned patent application.

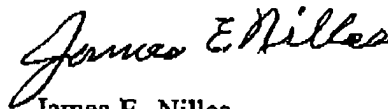

However, this restriction requirement is respectfully traversed. It is believed that the inventions are not separate and distinct to the extent that would require them to be separately examined.

Applicants hereby reserve the right to file a divisional application directed to the non-elected claims.
